### NARRATIVE

"I was very impressed with the 9500i and again, it will be my top pick for the 2007 detector line." - RadarBusters.com

Escort's latest invention, the all-new Passport 9500i, has revolutionized the radar detector category again. Its blistering performance is derived from the "World's Best" Passport 8500 X50, which means it delivers the best protection possible against all speed measuring devices. We added advanced GPS-powered intelligence, which makes the Passport 9500i the best performing, quietest and most user-friendly radar detector ever designed.

Escort doesn't add bells and whistles; they add true performance and useful technology that makes a better product for customers. Escort does this with great passion and precision, and Escort does it like no other in the industry.
